## GRC-LED CONTROLLER

Using an EYE HORTILUX® master controller for your EYE HORTILUX® systems offers you maximum control, ease-of-use, safety, and plug-and-play installation. Just connect the controller cables to the systems with the T-splitter included with the system, plug the controller and the systems directly into the main power supply and you are set to go.

For use with EYE HORTILUX LED Grow Light Systems, sold separately
